FOUR

SET UP option 2

- 1 **Pioneer DDJ SRT 1000** for Serato only. (Alternative: Pioneer DJ DDJ-SZ2)
- Sound system with suitable power for the venue.
- 1-2 **high power monitor speakers** pointed towards the DJ at ear level. In the event that it is only possible to place the monitor on one side, it must be on the right side of the DJ. Monitors must be controlled by DJ via the booth output on the DJ controller/mixer. The system shall also be free of all earth hums and electrical buzzes.
- 1 **wireless microphone** (Shure preferred) connected to the controller or mixer.
- All of the above **must be properly connected**, fully functional, and of good quality (no broken buttons/faders, etc.)

ESSENTIALS

SET UP

- **Waist height DJ Booth or Table** - ideally a 6' x 2' Ally Deck on 90cm Scaff Legs, or an Equinox DJ Booth, or similar. Booth/Table should be draped or covered at the front and sides all the way to the floor, to hide wiring. Equipment should be placed on a flat, solid and stable surface, free from any vibration and movement.
- **Surge protector** positioned inside of the DJ booth for additional plug ins.
- **Desktop fan AND one large fan** positioned opposite of the monitor.
- **Table or shelving** for DJ bag/essentials

REQUIREMENTS

MUST HAVES

- The DJ must be visible to the audience and the area should be efficiently lit.
- 30-45 min sound check prior to event start.
- Please let us know if the Venue/Event has the option of LED Wall. We will send logos.
- 4 bottles of water.
